CERTIFIED COURSE ON CAMPUS TO CORPORATE
COURSE CODE: (CCC012018)

INTRODUCTION

"Campus to Corporate" is a short course designed to help young students make the transition from college life to the corporate sector. It's not just academic inputs which go into making a student successful in life. There are various other aspects of his personality which help him in achieving what he aspires and desires. If correct guidance and inputs are given at the right time and the students are groomed properly they can easily grab good opportunities early and become successful in their chosen career. Most students have the potential, but lack of right guidance, motivation, mentoring and training makes it difficult for them to reach where they would have otherwise reached easily and early. The inputs which may be required are often in the attitudinal and behavioral areas.

Often it has been found that schools and colleges stress more on developing the academic skills of students and in this process, some very critical behavioural and attitudinal issues are ignored. It has been proved through research that it is not just your knowledge that helps you achieve success in life, but it's your attitude. It is often said that your attitude determines your altitude.

Our student, campus to corporate training aims at working on student's attitude and behaviour and helps them build the right attitude required. This student training derives its major strength from the researches in the field of psychology. The various applied concepts are chosen to be presented to the students. This student's workshop seeks to resolve many of the personal, interpersonal & adjustment issues of the students by providing them with practical and simple action-steps to implementation in their daily lives. One of the major impacts of this student's workshop is that they gain enough confidence to work with different people in teams and get over their inhibitions. The impact is immediate and the change in them is visible and permanent.

Programme Objective:
